

What is Rendever Live?

Rendever Live offers pre-scheduled sessions that are broadcast live to everyone in the Rendever family. Completely complimentary, an expert from our team will take your residents through an engaging experience and interact with them via our Expert Chat feature throughout. Simply tune in when a session is scheduled to see for yourself!

How do I tune in?

To join, tap the banner notification along the bottom of your control tablet - or the icon with three dots and select 'Rendever Live.' It may take 20 seconds or so to load on the tablet and in the headsets. The Expert Chat icon will bring up a chat box so that you can ask questions or request technical assistance and the Volume Settings will allow you to manage the experience and voice volume.
